

# CONGRATULATIONS JOHN

GRADUATING CLASS OF 2008

**The Bilyidar Program has a more hands on approach which caters for your needs and the teacher to student ratio is good. I liked that the S.E.S. was incorporated because it's not normally available with school programs. Everybody had their own reason for wanting to join the Program which allowed for a good mix of people who all accepted each other and I felt included. I enjoyed the camps, excursions and sports which gave me the opportunity to try out new things.**

**I have enrolled in an On Track Bridging course at Murdoch University starting in February 2010 & am interested in a career in Psychology or Criminology.**
